

## HELP BEAT BOWEL CANCER

Sponsor a jungle trek.

Money raised will go to

***Beating Bowel Cancer***

**Did you know you have a 1 in 20 chance of getting bowel cancer?**

Early diagnosis and treatment are key to curing patients.

The charity "***beating bowel cancer***" promotes early diagnosis and helps patients through the jungle of investigations and treatment

A team from Poldark ward (a specialist ward caring for patients with bowel cancer) at the Royal Cornwall Hospital, are doing a 10 day jungle trek in November 2012. Our trek takes us through 70km of dense, steamy jungle in 10 days. Just as bowel cancer treatment is a challenge for our patients so this will be for us!

We aim to raise £20,000 for the charity

***"Beating Bowel Cancer"***
